SUMMARY

UX/UI designer with a foundational understanding of the complete design lifecycle, including user research, persona development, wireframing, high-fidelity prototyping, and usability testing. Driven to solve problems and advocate for the user. Seeking a professional role to apply my skills in a real-world setting and contribute to meaningful projects

PROJECTS

University Student Application Redesign

Jan 2023 - Jun 2023

Problem: The current university portal is cluttered and has a confusing navigation, making it difficult for students to find critical information like attendance and exam schedules.

Process & Solution:

- Conducting a heuristic evaluation to identify and document key usability failures.
- Currently sketching and wireframing a "task-based" dashboard to simplify the user flow.
- Goal is to reduce the steps to check exam schedules from 6 clicks to 2.
- [Currently Working on Project]

SKILLS

- UI/UX Skills: User Research, Usability Testing, Wireframing (Low & High-Fidelity), Prototyping, User Flows, Persona Creation, Empathy Mapping, Information Architecture
- Design Tools: Figma, Adobe Illustrator, Photoshop
- Soft Skills: Collaboration, Communication, Problem-Solving, Empathy, Feedback & Iteration
